OHIO RACK, INC.

WELCOME TO OHIO RACK

Now in our third decade, Ohio Rack has been manufacturing NEW, all steel, portable stack racks and reusable shipping containers to help our customers utilize their air space to gain more density in their warehouses and/or distribution centers. Along with manufacturing NEW stack racks, Ohio Rack also buys and sells USED portable stack racks.

Serving many different industries, we are recognized as one of America's leading manufacturers of flexible material handling systems (i.e. Portable Stack Racks). Ohio Rack strives to be the leading manufacturer of the highest quality stack racks.

PORTABLE STACK RACKS

Protect your loads during handling, stacking and shipping with portable stack racks. Portable racks can be a better material handling solution than standard pallet racking. Portable stack racks act as their own pallet, eliminating the need and cost of wooden pallets. The vertical posts allow racks to be stacked several units high, without load-on-load contact – eliminating product crushing damage. Save room by pushing your seasonal and slow moving items tight together, without aisles in portable racks. Portable racks are effective steel pallets with steel posts that stack on top of each other, so you can push them together, end-to-end, saving up to 60% of your storage space.

OHIO RACK, INC.

NEW PORTABLE STACK RACKS, TIRE RACKS

Ohio Rack has been selling New Portable Stackable Racks for nearly 30 years. We manufacture a wide variety of New Stack Racks for many industries worldwide. All of our racks are custom built to fit our customers' requirements. Whatever your need is, we can make the rack to fit it!

USED PORTABLE STACK RACKS

We carry a wide variety of used stack racks in either, all steel 4 removable posts, fold-down, or pallet frame style.

TRUCK TIRE RACKS

Our truck tire racks are specifically designed for storing all of your heavy duty OTR tires. Stack them on-thread or barrel stack depending on your storage requirements. The racks can be stacked 4 high in your facility for maximum storage density.

FOLD DOWN RACKS

The fold down racks offer a wide range of versatility. They are used for storing large quantities or smaller quantities of tires, whether passenger, light truck or truck tires. We have a few standard sizes to fit your needs. Stack your tires on-thread, or lace your tires in the racks. When not in use, fold down the sides for easy storage and save the unused space.

TEXTILE, FABRIC & CARPET RACKS

These textiles stackable racks are a great way to increase your warehouse space for fabric, carpet, carpet padding, or other textile roll products. They can be loaded directly on the stack rack from the assembly line, and then stored in your warehouse or staging area. These racks will reduce your labor costs and eliminate damages while making storage and receiving a breeze. Since these racks are portable, they can be loaded directly onto a truck for delivery without having to remove the product from the rack.

TUBE CARTS & CORE BUGGIES

- Rigid or Collapsible – Built up to 24' in length
- Long Cores
- Short Cores
- Tube Cart/Mobile Available – for handling cut-to-length cores

WINDOW & MILLWORK INDUSTRY

- Stackable 3-Tier Unit – For production line parts
- Portable Stacking Rack – With removable posts or end frames for in-process
- "A" Frame Glass Rack – For glass shipping and handling
- Stackable Floor Dolly – For handling and storing glass and patio door sections
- Stackable Glass Door Rack – For doors and windows
- Glass (Buck) Racks – For handling automotive glass

MOBILE 2-TIER/RETAIL TIRE RACKS

Portable tire rack is designed for durable, economical merchandising of your fastest moving tires.

BUILT TO LAST

Looking for the strongest portable tire rack on the market? Portable tire rack is designed for extra durability-under the toughest conditions. Heavy duty, all-steel construction and solid welded uprights make this unit built to last.

ECONOMICAL FOR MERCHANDISING YOUR FAST MOVERS

Portable tire rack is designed for performance and economy-holds up to 18 of your best sellers. Mount merchandising signs on cross beam for added impact.

EASY TO USE

Portable tire rack is easy to assemble

FEATURES

- Solid welded 12-gauge end steel won't bend, sway or warp, for years of safe service
- 6" solid cushioned rubber wheels roll easier-even on rough, uneven surfaces
- 30" wheel base provides stability for safe loading and moving

PLASTIC LUMBER PALLETS

Our Plastic Pallets look and feel like wood pallets. These Plastic Pallets are made from 100% recycled plastic and have all the attributes of wood, but none of the disadvantages. Our Plastic Pallets are used in industries that demand a clean hygienic environment. They offer enhanced material handling, stacking and can be used for virtually any form of packing. Our Plastic Pallets can be used with forklifts, pallet-jacks, stackers, etc. They can be made to any size and are perfect for overseas shipments.

HERE ARE SOME OF THE ADVANTAGES OF OUR PLASTIC PALLETS:

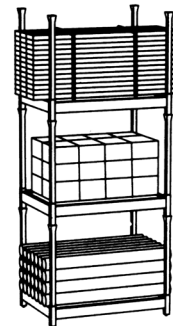

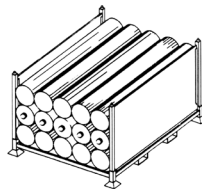

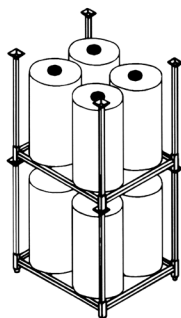

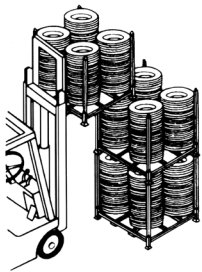

- 100% recyclable and reusable
- Extremely tough and durable
- Have a much longer service life than wooden products
- Create a safe working environment - no splinters, nails, broken pieces of wood
- Cover a wide variety of sizes and shapes, can also be custom made
- Stay consistent in size and shape
- Can withstand severe temperatures
- Resistant to water, acids and other chemicals
- Impervious to insects, termites and fungus
- Resistance to moisture, will not rot or corrode

WHY CHOOSE OHIO RACK?

Ohio Rack's main focus is to provide the flexible material handling industry with products that will exceed our customers' expectations of on-time delivery and durability. Over 90% of our stack racks are custom built to our customers' specifications. We can design custom steel racks for any of your material handling needs and manufacture stand or custom products to meet the diverse array of requirements of a broad range of industries. We pay close attention to quality in our products, which is why we have been recognized throughout the industry for our quality workmanship.

Customer Service remains the cornerstone of Ohio Rack's business and is the driving force behind our continued growth. A sales associate will work with you to find solutions to all your material handling needs from the start of your project to the end of the project.

Ohio Rack values our customers. That's why we know price is important to everyone and when you talk with us, you will find out that our pricing is very competitive, a fact that our many long-time customers can attest to. That's why Ohio Rack is the supplier of choice for the material handling industry. So whether your order is 500, 5,000 or 150,000 racks, we will meet our scheduled delivery commitment on time every time – with the highest quality standards our customers have come to expect.

We look forward to opportunity to serve you and thank you in advance for letting us participate in your material handling solutions.
